Navcad Program Opened by Navy

The Navy Recruiting Station at 114 Coral Way, Redondo Beach, announces that applications for Navy pilots training in the Naval Aviation Cadet program are now being accepted.

To become a Naval Aviation Cadet, you must have at least 60 semester hours of college credits, be between the ages of 18-25, have 20/20 uncorrected vision, unmarried, and pass the written and physical examination.

College graduates, married or single, with a degree in any major, are eligible for the Aviation Officers Candidate program, whereby they may receive a commission following four months of pre-flight school and complete their training as an officer.

Successful candidates will be sent to Pensacola, Fla., "The Annapolis of the Air," for training.

Following training, the cadet will be commissioned as an ensign in the Naval Reserve.

The Naval Aviation Information team will visit El Camino College March 7 and 8. This team will be available to all students for the purpose of counseling them in relation to the student's military future. They can be found at the Campus Center between the hours of 10 a.m. and 2 p.m.

Those desiring additional information may contact the Navy Recruiters at 114 Coral Way or call FR 6-4410.

VICTOR E. BENSTEAD Seeking Third Election

Victor Benstead Seeks 3rd Term As Councilman

Victor E. Benstead Jr., first elected to the city council in 1952, opened his campaign for election to his third term this week.

A resident of Torrance since 1921 and of the South Bay since he was a young child, Benstead has been identified through the years with civic activities.

"I have served the people of Torrance as a city councilman for eight years, during that time, my first thought has been to represent them as homeowners in their many problems," he said.

HE WAS A member of the city's first civil service board for six years prior to his election to the city council, and spent most of that term as chairman.

Since his election to the council, he has served for six years as chairman of the police and fire commission. During that time he has become aware of the extreme need for more police and fire protection, he said.

"We need additional fire stations to protect the city adequately," Benstead said.

AS A CITY councilman during the tremendous growth of the city, Benstead has taken part in directing that growth.

"Our building department has issued and passed on a record number of building permits, and during my terms, I aided in the reorganization and placing of this department on a businesslike basis," he said.

"Government in a city of the size and present population of Torrance with its great future possibilities for growth has become big business, requiring councilmen of experience, honesty, integrity, and ability," he added.

"IF ELECTED, I am willing to serve my city for an additional four years, in serving to represent all of our people—the homeowner, industry, and the businessman with equal impartiality.

"I believe that the experience I have had on the city council for the past eight years has further qualified me for this office and if elected, I will continue to give all my efforts toward present and future best interests of Torrance."

His colleagues on the city council paid tribute to Benstead's efforts for city recreation facilities a few years ago when they named the city swimming pool the Victor E. Benstead Plunge.
